

Description	Specification
Ink Composition	Resin
Colours	Black
Base Film Thickness	4.5µ ± 0.5µ
Total Thickness	7.0µ ± 1.0µ
Ink Melting Point	95°C
Print Speed	Up to 100mm/Sec

### Features

HL45 is a resin ribbon for flat head printers. It is designed for durable printing on a number of synthetic label media. HL45 will withstand the harshest industrial environments, resisting brake fluid & petrol.

### Receiving Label Media

- Synthetic media (PE,PP,PVC,PET etc)

### Typical Applications

- Chemical & solvent labelling
- Motor industry identification
- Food labelling

### Approvals

FDA Listed in the drug master file for food contact

### Storage Recommendations

**5°C to 35°C – 30% to 80%** relative humidity  
 Best results obtained when printing within **24 months** of manufacturing date.  
 Keep away from direct sunlight
